

McLeod Health Loris

McLeod Loris Grows the Commitment to Health Services

Part of the McLeod Health system that delivers care from South Carolina's Midlands to the Coast, McLeod Loris – a not-for-profit 105-bed hospital – specializes in general surgery, women's services, dialysis access, emergency care, critical care, cardiac/pulmonary rehabilitation, and physical/occupational/speech therapies. McLeod Loris' 120 physicians on active and affiliate medical staff represent more than 32 specialties.

Generous giving to the McLeod Foundation also helps fund essential programs, services and equipment supporting McLeod Loris.
