# WHY SHOULD I GET THE COVID-19 VACCINE?

## To Protect Yourself, Your Coworkers, Your Patients, Your Family and Your Community

- It is important to build defenses against COVID-19 in our facilities and in your communities. You play a key role in making that happen. But it will take all of us working together.

- Getting the COVID-19 vaccine is an important layer of protection for you, your coworkers, patients, and family.

- Do your part to help others feel confident in the new COVID-19 vaccine.

**Get vaccinated** and enroll in the **v-safe** text messaging program so the CDC can monitor vaccine safety.

**Tell others why** you are getting vaccinated and encourage them to get vaccinated.

**Learn how to have conversations** about the COVID-19 vaccine with others.
